Education

Pennsylvania College of Technology

Bachelors of Science in Web and Interactive Media – a computer science degree that focuses on accessibility, UX/UI design, and web programming

Experience

The Pennsylvania State University

Programmer/Analyst II | June 2014 – Current

Responsibilities ranged from programming new features for websites and applications to web server administration to UX/UI design.

Freelance

Programmer | January 2013 – December 2015

This was self-directed work with a variety of clients to develop websites or web applications according to their wants and needs.

Pennsylvania College of Technology

Programming and Interactive Media Tutor | September 2013 – December 2014

Responsibilities included tutoring students in a variety of programming languages as well as user experience, user interface design, and accessibility concepts.

Activity

Member of PSU's Drupal Users Group

A group of developers, designers, and users implementing Drupal across Penn State and its branch campuses – The group regularly meets and provides a network of assistance for Drupal developers.

Member of PSU's Plone Users Group

A group of programmers using Plone at Penn State's main campus – The group meets monthly to discuss Plone and its use on campus.

Web Developer for Penn State's Web Conference

Hosted by Penn State yearly, the conference focuses around modern web topics. As a full stack developer on this project I worked closely with the design and marketing teams as well as the other members of the web team. This project is built on Drupal and Zurb Foundation.
